

Solar projects  
at their  
**best!**

## **Together for a better life!**

GOLDBECK SOLAR is an international company specialized in the realization of commercial and industrial photovoltaic systems. Based on our 22 years of experience, we develop and integrate world-class technologies and offer professional, affordable and cost-effective services along the entire value chain.

Our goal is to maximize your economic profitability and facilitate the implementation of solar systems by reducing the complexity and risks of your solar projects.

The photovoltaic industry represents an economy with a deeper meaning that goes far beyond economic profit, it also has environmental, humanitarian and democratic benefits for all stakeholders. Thanks to the most powerful and reliable natural resource, the sun, we can generate clean energy for independent, sustainable and healthy living.

### **Joachim Goldbeck**

Chairman of GOLDBECK SOLAR GmbH

President of BSW (German Solar Industry Association)

## Customer Benefits

1. A tangible investment with predictable returns in a strategic area.
2. A reliable system of the highest quality at a competitive price.
3. Professional advice until you are sure of your decision
4. We make your project bankable thanks to our 22 years of experience and expertise.
5. Support in choosing the best financing option.
6. Award-winning engineering and technology.
7. A flexible and adaptable partner that responds to your individual needs.
8. A highly qualified partner for solar energy.
9. Multiple designs are virtually compared to find the best technical solution and most cost effective solution for your project.
10. A collaboration with a solid family business with strong values and sound financial strength.

**„GOLDBECK SOLAR is known for its technical excellence, speed of construction and professional service“.**

## GOLDBECK SOLAR in figures

---

**22** Year  
Experience since 2001

---

**20** Countries  
Project realised

---

**265** Employees  
GOLDBECK SOLAR GmbH

---

**1,200** MWp  
O&M Portfolio

---

**2,500** MWp  
Installed capacity

**GOLDBECK SOLAR offers you competence and experience through all phases of your Project.**

Now is the time to take a step towards economic and technical independence and sustainability and position yourself for the future!

GOLDBECK SOLAR shows you how. We are experts with 22 years of successful experience in the field of solar technology.

### **Project Development**

From the first idea, we are your partner. Before your solar project sees the light of day, we check the feasibility and clarify together the conditions to make your plan viable. We support you during the process of selecting the right land and during the acquisition or leasing process. Planning from the beginning: we analyze in depth and optimize the parameters of the initial technical designs and installations. The technical support we offer to speed up the approval process gives you a decisive advantage.

### **Engineering, procurement, and construction (EPC)**

GOLDBECK SOLAR develops a clear vision for your solar project together with you. From the planning, through the procurement of the necessary materials and services, to the realization and subsequent maintenance of your solar system, we are always at your side. The coordination of all steps comes from a single source and thus avoids interruptions. This way we guarantee efficiency and quality.

### **Operations & Maintenance (O&M)**

Our O&M concept guarantees the permanent satisfaction of your investment in clean and sustainable energy. Our service personnel handles more than 500 systems and more than 1,200 MW of installed capacity on a daily basis. Whether open areas or rooftops, central inverters or string inverters, thin-film or crystalline module technology: our team is your competent partner for your photovoltaic system.

## Products and Services

### How to finance?

#### 01.

##### Your own investment – for your energy

If you want to take full advantage of your project and hold the reins yourself, then invest and harvest. Contribute your own equity or a solar loan to turn your roof or land into a solar power system. You can use the energy for self-consumption supplementing it with an optimization battery or feed it into the grid.

#### 02.

##### Our investment – your energy with a PPA (Power Purchase Agreement)

You don't want to build and invest directly, but still wish to take advantage of green and inexpensive electricity? Then just receive and enjoy the clean electricity – we will take care of the rest. We offer you an attractive Power Purchase Agreement, in short, PPA.

#### 03.

##### Our joint investment – our energy as partners

GOLDBECK SOLAR develops as IPP (Independent Power Producer) its own Projects. We can offer you different investment opportunities. Please contact us to check your best options. We can also help you to take your place in the energy market as IPP yourself. Solar Energy is a profitable and safe investment.

REFERENCES

# Solar plants: Rooftops and parks

Solar Park Zwartowo, Poland  
Power: 204,000 kWp  
Start of Operation: 09/2022

## Solar parks

From 6 MWp photovoltaic systems to large-scale projects with more than 100 MWp, we are your contact for professional implementation and support.

**Bavelse Berg, Netherlands**  
Capacity: 37.000 kWp  
Commissioning: 03/2021

**Lurrig, Ireland**  
Capacity: 5.2 MWp  
Commissioning: 06/2022

**Bruhrain, Germany**  
Capacity: 6.166 kWp  
Commissioning: 04/2022

## Solar roofs

Thanks to our experience in industrial construction, we know all the aspects that need to be taken into account to build a successful solar roof.

GOLDBECK SOLAR is your flat roof specialist.

**Smartlog Maasvlakte, Netherlands**  
Capacity: 25 MWp  
Commissioning: 05/2022

**Greiwing Worms, Germany**  
Capacity 675 kWp  
Commissioning: 11/2022

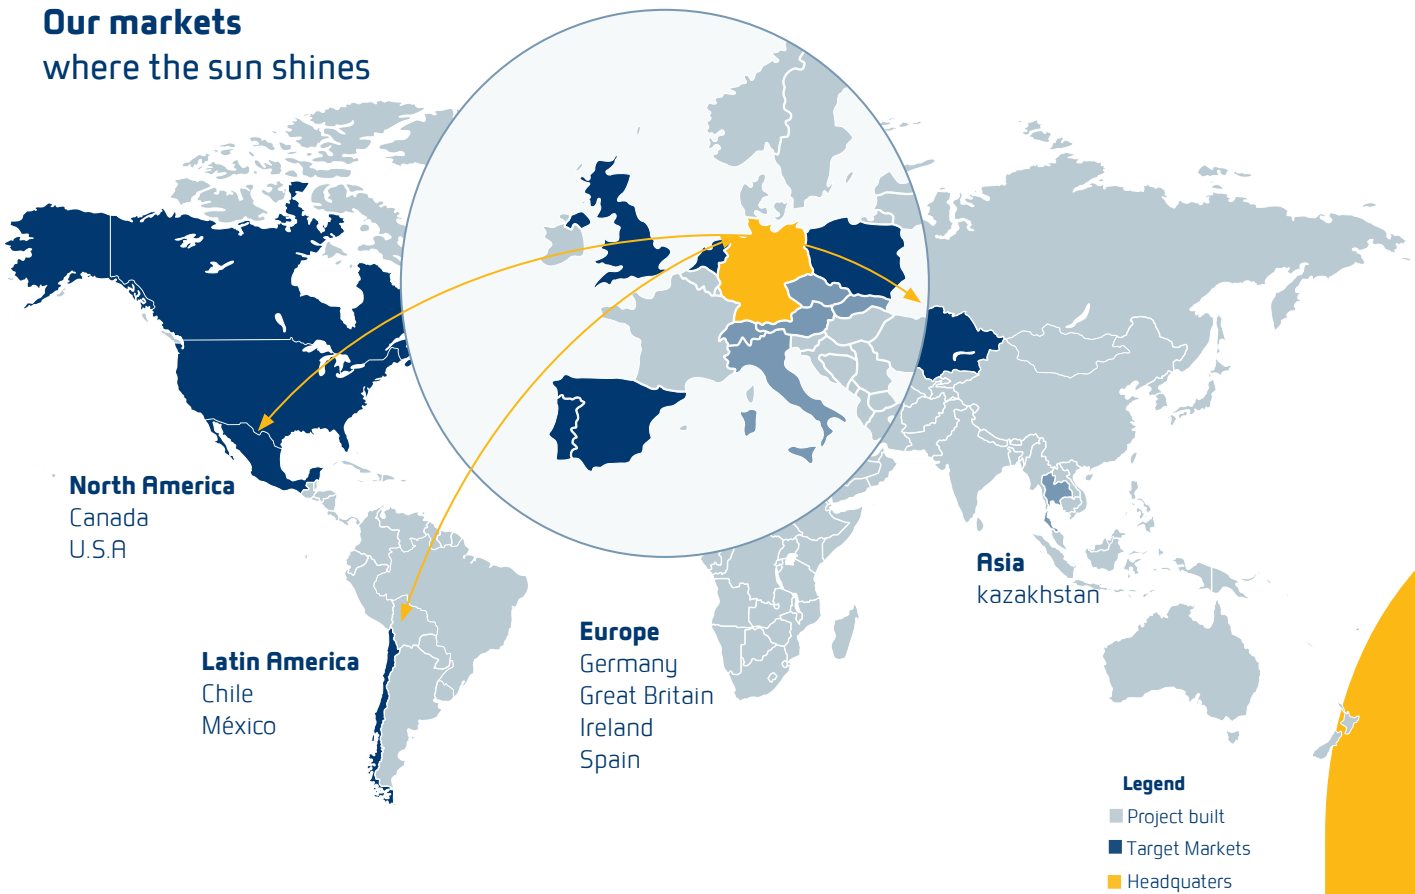

**Logicor Gelsenkirchen, Germany**  
Capacity: 745 kWp  
Commissioning: 03/2022

**Rheinenergie, Germany**  
Capacity: 3.750 kWp  
Commissioning: 03/2022
